Instructions for use:

Prepare the tank and check that the light and all other accessories are in-house and in good condition before installing the lamp.

Install the lamp without fitting the bracket first. Place the lamp in the tank and adjust the angle of the lamp head to the desired position. Then fix the bracket to the tank and place the lamp on the bracket.

3. ATTENTION

- Please read the manual carefully before using and follow the safety instructions.
- Please keep the aquatic plants from water since it is not waterproof.
- Please keep the lamp head and bracket away from the aquatic plants.
- Please keep the lamp head and bracket away from the aquarium glass when the lamp is turned on
