## AQQA 040 USER MANUAL

### AQQA Aquarium AC Air Pump

AQ040-2.5W

AQ040-5W

AQ040-8W

The AQQA Aquarium AC Air Pump provides sufficient bubbles for your aquariums.  
If you have any problem, please provide your amazon order id (amazon invoice) and shipping address by E-mail: service@aqqapet.com

### 1.PRODUCT FEATURES

**Fashion design:** The air pump is fashionable in appearance and unique in color. Covered with black color and AQQA's signature color, it looks upscale and atmospheric.

**Double-layer structure:** This pump uses a durable double-layer structure (built-in air pump and a thickened shell) to effectively prevent internal noise diffusion. It also has a stainless steel outlet.

**Rubber pads reduce noise:** 4 soft rubber pads at the bottom can further reduce the noise and prevent drastic movement of a working pump.

**Adjustable air volume:** Rotating the knob on the top of the pump can adjust the air volume (For double hole) .

### 2.PRODUCT SPECIFICATIONS

Model No.	AQ040		
Voltage	<input type="checkbox"/> 110-120V/60Hz	<input type="checkbox"/> 220-240V/50Hz	
Power	2.5W	5W	8W
Air flow	2.5L/min	4L/min	8L/min
Pressure	0.01Mpa	0.012Mpa	0.018Mpa
Cord length	5.9FT/1.8m		
Dimension	17*10.5*8cm 6.7*4.1*3.1 inch	18*13*8.4cm 7.08*5.1*3.3inch	21.5*16*9cm 8.5*6.3*3.5inch
Sound	≤40dB		

①

### 3.INSTRUCTIONS

**Please pay attention to the below important reminder before using:**

Picture 1: If the air pump is placed below the water surface, you must install it with a check valve. If you do not use a check valve, the water will drain back to the pump, resulting in pump damage.

**Picture 2:** Place the air pump 25 cm (approximately 10 inches) higher than the water surface to avoid water back flow.

### 4.ATTENTIONS

- ✓ Please read this user manual carefully before using and follow it strictly.
- ✓ Please install the air pump with check valves or place the air pump 25cm (approximately 10 inches) higher than the water surface in order to avoid water back flow and potential damage to the pump.
- ✓ Please place the air pump level on a flat surface and put a towel under the pump to reduce the sound.
- ✓ Please keep the air pump away from water since the air pump is not waterproof.
- ✓ Please keep the air pump away from flammable items in order to avoid accidents.
- ✓ Please unplug the power and contact the seller if the air pump is making abnormal sound, overheating, or has no air output.
- \*\*OPENING WILL VOID WARRANTY\*\***
- ✓ Please soak the air stones for 1-2 hours before first use to get perfect bubbles with this pump.
- ✓ Please clean the filter cotton monthly because the air filter will accumulate a lot of dust after a period of use. This is normal and to be expected with any air pump.
- ✓ Please note that airflow loss is usually caused by clogged air-stone. which is the result of algae, floating debris, and mineral deposits accumulated in the pores. If you notice a diminished air flow, try blowing through the air-stone by yourself. If it is difficult, replace the air-stone.
- ✓ Please unplug the power before maintenance.
- ✓ Please mind that the operating temperature range for the air pump is between 33.8 ℉ ~95 ℉ (1 ℃ ~35 ℃).

✓ Please mind that the maximum water depth for the attached air stone is 2.6 feet (7.9m).

**5.WARNING:** To avoid possible electric shock, do not immerse the pump in the water. If the pump falls into the water, or becomes wet, do not touch it until you have unplugged it. Basic safety precautions that should be observed are as follows:

**CAUTION:** To prevent possible electrical shock resulting from water back-siphoning, the pump should be used with a check-valve or positioned higher than the tank's water level.

1.Read and follow this user manual strictly.

2.DANGER- To avoid possible electric shock, special care should be taken since water is employed in the use of aquarium equipment. For each of the following situations, do not attempt to repair yourself; return the pump to an authorized service facility for maintenance or discard it.

A.If the pump falls into the water, do not touch it. First unplug it, then retrieve it. If electrical components of the pump get wet, unplug the pump immediately.

B.Carefully examine the pump after installation. It should not be plugged in if there is water on parts that are not intended to be wet.

C.Do not operate the pump if it has a damaged cord or plug, is malfunctioning, dropped or damaged in any manner. The power cord of this pump cannot be replaced. If the cord is damaged, the pump should be discarded.

D.To avoid the possibility of the pump plug getting wet, position the aquarium and its stand to one side of a wall mounted outlet to prevent water from dripping onto the outlet or plug. A "drip loop", shown in the figure below, should be arranged by the user for each cord, which connects the pump to the outlet. If an extension cord is used, the "drip loop" is the part of the cord below the level of the outlet or the connector that prevents water from traveling along the cord and coming in contact with the outlet. If the plug or outlet does get wet, DO NOT unplug the cord. Disconnect the fuse to the circuit breaker that supplies power to the pump. Then unplug and examine for the presence of water in the outlet. If you are not sure, consult a certified electrician.

②

### POWER CORD

### DRIP LOOP

3.Close supervision is necessary when the pump is used near children.

4.To avoid injury, do not contact moving or hot parts.

5.Always unplug the pump from the outlet when not in use, before putting on or taking off parts, and before maintenance or placing hands in the water. Never yank the cord to pull the plug from the outlet. Grasp the plug and pull to disconnect.

6.Do not use the pump for other than intended use. The use of attachments not recommended or sold by the appliance manufacturer may cause an unsafe condition and will void the warranty.

7.Do not install or store the pump where it will be exposed to extreme weather or temperatures below freezing. This pump is suitable for use in water temperatures between 40~95 ℉ .

8.Make sure the pump is securely installed before operating it.

9.Read and observe all the important notices on the pump.

10.If an extension cord is necessary, a cord with a proper rating should be used, such as rated amperes or watts. A cord rated for less amperes or watts than the pump rating may overheat. Care should be taken to arrange the cord so that it will not be tripped over or pulled.

11.The pump is intended FOR HOUSEHOLD USE ONLY.

12.SAVE THIS USER MANUAL.

### 6.ONE YEAR LIMITED WARRANTY

This product MUST be purchased from an authorized AQQA reseller. Visit our website for a list of authorized resellers. AQQA warrants this product against defects in materials and workmanship for ONE(1) YEAR from the date of the original retail purchase and is non-transferable.

Warranty on all products, including aquariums. But it is limited to the replacement of the products and does not cover fish loss, personal injury, property loss or direct, incidental or consequential damage caused by using this product.

Note: AQQA's One-year Limited Warranty does not cover damage caused by the followings: improper installation, saltwater corrosion, electrical surges or modifications.

If you discover a defect, please contact AQQA, who will, at its option, repair or replace the product at no charge, provided that you return it during the warranty period. A copy of the bill of sale is required as proof of the original purchase date in the event of the product needing repairs within the warranty period. AQQA does not warrant any products that are not AQQA's. This warranty does not apply if the product has been damaged by accident, abuse, misuse or misapplication, or modified without the written permission of AQQA.

### 7.DISPOSAL

Do not dispose this product as unsorted municipal waste. Collection of such waste separately for special treatment is necessary. This product has to be disposed at an authorized place for the recycling of electrical and electronic appliances rather than being disposed together with the domestic waste. Collecting and recycling waste is a way of saving natural resources. So, please consult with your local seller to make sure the product is disposed in an environmentally friendly way.
