5.METHOD OF APPLICATION

Please install the filter according to the following steps:

Step1. Take off the Fixed buckle

Step2. Take off an extra sponge, save it as a replacement.

Step3. Fix the buckle

Step4. Insert the L-connector into the hole of the filter container, and the other end is connected to the air tube suitable for 4mm/0.16" (Inner diameter) air tubing.

Step5. Put this product completely into the water, squeeze the sponge repeatedly, making sure the air is completely out of a sponge. After the sponge is full of water, the filter can sink to the bottom of the Aquarium.

Step6. This product needs to be connected to an air pump (NOT INCLUDED). It is recommended to use a check valve on the air pipe to prevent water from flowing back to the air pump.

Note: There're 2 sponges attached together for compact package, please only keep one on the filter and save another one as a replacement. Due to the long transportation time, the sponge may be deformed, please put the sponge in the water for 10-30 minutes to restore the original shape.

If you need to change or wash the ceramic filter media, please follow the steps:

Please do not pull out the outlet pipe
