**AQQA AQUARIUM POWER-DRIVEN BIOCHEMICAL SPONGE FILTER**

**AQ-016**

AQQA aquarium power-driven biochemical sponge filter is a type of hanging filter, it is perfect for all types of aquarium tanks and fishes.

## 1. PRODUCT FEATURES

**More efficient and durable:** Double ribbing shape sponges design and made of premium materials. Two sponges means more surface area for beneficial bacteria filtering the aquarium water crystal clear. It also can remove the peculiar smell.

**Mechanical and biological filtration:** Two containers with ceramic pearls and biochemical sponge. Both are easily replaceable.

**Increase dissolved oxygen and cultivate beneficial bacterial:** Ceramic pearls filtration media will remove harmful substance and increase dissolved oxygen.

**Retractable outlet pipe:** Convenient to adjust the height of air outlet, in order to meet your requirements.

**Easy to set up and clean:** It is easy to install this sponge filter and easy to clean all parts of sponge and ceramic pearls. You can also replace the ceramic pearls with other bio filter media.

**Suitable for shrimp, betta, tropical fish, planted tanks or others**

## 5.METHOD OF APPLICATION

Please install the filter according to the following steps:

①. Remove the two sponges from the filter.

②. Pull the ceramic pearls container lid out while rotating counterclockwise.

③. Remove the two sponge replacements from the ceramic pearls container.

④. Open the ceramic pearls package and rinse two sponges, the ceramic pearls and all parts with clean water from tank (Don't rub) , in order to remove the any debris or dust and clean the filter. Then soak the two sponges and ceramic pearls in tank water for 10 minutes.

⑤. Divide the ceramic pearls in half and pour into the two ceramic pearls containers.

⑥. Secure the lid to the ceramic pearls container well. Secure the two sponges to the filter.

⑦. Place the filter on the back wall of the aquarium with two suction cups. Make sure the double sponge filter is oriented vertically, otherwise the pipe will be blocked by the ceramic pearls.

Make sure all the connection is firm! Then plug the power cord.

## 6.WARNING

- Don't use tap water or hot water to clean the biochemical sponge filter. Make sure to clean the filter with tank water.
- Make sure the double sponge filter oriented vertically, otherwise the pipe will be blocked by the ceramic pearls.
- Clean the filter with tank water every 2 ~ 4 weeks.
- We recommend replacing the sponge and ceramic pearls every 5 ~ 6 months.

## **7.WARRANTY**

1. 1-year free warranty.
2. 1-month free return.
3. Free replacement for 3 months.
